

Technology Business Incubation – CAR

InTTO

The Innovation and Technology Transfer Office (InTTO) aims to drive the culture of innovation by providing business and technology transfer opportunities among faculty, students, alumni and the community with the help of the two units in this office.

UPB – SILBI

Silbi, a Filipino word meaning "service" or "use," embodies UP Baguio's commitment to community and national service. Within this context, it represents the expansion of efforts to transform local communities in the Cordillera and Northern Luzon through research and innovation. The SILBI Center (Social Innovation Laboratory and Business Inclusion) at UP Baguio serves as a hub for these public service initiatives.

SLU

The SIRIB Center was established in 2017 with funding from a CHED grant to create a cutting-edge Technology Hub and Co-Working Space. This initiative aimed to pioneer and launch "Technopreneurship 101," an innovative course designed to integrate entrepreneurship into engineering education, fostering a new generation of tech-savvy entrepreneurs.

BSU

The Agri-based Technology Business Incubator/ Innovation Center (ATBI/IC) was founded under BOR Resolution No. 1939, s. 2010. This non-profit initiative serves as an educational and research-driven program designed to support start-up and early-stage micro-scale businesses. It offers a dynamic environment where entrepreneurs can access essential professional support services, helping to stabilize and grow their ventures in the agricultural technology sector.
